DETAILED ACTION

Response to Amendment

1. This communication is in response to Applicant's reply filed under 3 CFR 1.111 on 10/6/2009. Claims 1,13,30, and 31 were amended, claim 2 was canceled, and claims 1,3-11,13-15,30 and 31 remain pending.

Amendment to claims 1,13,30, and 31 in response to rejection under 35 USC 112, second paragraph has been considered. The amendment to the claims obviates previously raised rejection, as such this rejection is hereby withdrawn.

Reason for Allowance

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach or fairly suggest the following: transmitting in one of a plurality of transport streams at least two different bouquet association tables containing information regarding services present in a commercial bouquet and transmitting within the one transport stream an additional table comprising a list of bouquet identity values that correspond to the bouquet association tables carried in the one transport stream.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Francois et al. (EP 989743) commonly assigned and owned, discloses the use of a single application data table that provides information across all services within a bouquet and providing a plurality of application data tables, in which each application data table contains information regarding applications contained in a bouquet of services [refer abstract][refer claim 1].
